BROKER'S COMMENTS

After a North Sea crossing ably completed early in her second season, this very handy sized Spirit of Tradition sloop, cousin to the Spirit 37 and Spirit 46, has enjoyed an idyllic life of both singlehanded and family cruising - and occasional racing - among the skerries of the south Norwegian riviera; where it's a best-kept secret that the summer season, albeit short, is always warm and sunny. Then in winter, when sensible sailors there go skiing, the Spirit 42 FALKUNGEN has always been nicely tucked away in a private boat shed not far from her private summer berth. Rarely is there a chance like this to become only the second owner of such a loved and gently used Spirit Yacht.

OWNER'S COMMENTS

"FALKUNGEN is a beautiful yacht which sails like a dream. I had it made with a view to be able to sail her single handed; this has been most successful. It takes me very little time to hoist the main sail, roll out the jib and to enjoy the fjords and islands on the Norwegian coast. I sailed it over to Norway from England in 1999. We had a lot of

wind in the back and it was a bit wet; she is essentially not a long distance boat. But, given favourable conditions I am sure that it would be fun to sail her to the UK or the Continent. I have participated in some local regattas and in a nearby classic regatta. She performs well in racing and is easily handled with a crew of three or four."

Specification
HISTORY

FALKUNGEN has been in the same ownership since being built by Spirit Yachts in 1998. The owner sailed her from England to Norway that spring - through a fierce storm, the voyage taking only three days. Since then she has led an idyllic life: docked at the family summer house on the south coast of Norway, used for single-handed and family cruising among the skerries, and occasional racing with friends and family. Summer sailing conditions are generally so good there that the engine has had minimal usage. Every winter she has been stored inside, under cover in her owner's private boat shed.

ORIGIN OF THE NAME

FALKUNGEN means 'Child of Falken', FALKEN being an 1870s cutter owned for the first 30 years of the 20th Century by the great-grandfather of FALKUNGEN's owner - and earlier owned by industrialist Christian Anker, father of the great Norwegian yacht designer Johan Anker. FALKEN was drawn by one of Norway's earliest yacht designers, H. Grønn, a very proficient amateur whose day job was as a high court lawyer. Grønn's output was heavily informed by a combination of his father's work on outer Oslo Fjord as a 'Kryssbetjent' - a coastal customs officer aboard custom cutters - and by an attraction to the beamy, shallow American yachts of the time. The resulting highly attractive and famously fast yachts to Grønn's designs had raked bows, elegant counters, wide beam and towering rigs, while somehow still looking Nordic. Interestingly for a designer of notably fast yachts, Grønn is believed to have only sailed in one regatta, at Aarhus, Denmark, as he believed that the regattas alone contributed to producing bad vessels!

Specification
CONSTRUCTION

- Western red cedar epoxy bonded hull planking
- Glass/epoxy outer finish/ epoxy faired

- Awlgrip paint system
- Douglas fir longitudinal frame

Specification
DECK LAYOUT, EQUIPMENT AND GROUND TACKLE
